FE5403 3MP Panoromic Fisheye IP Camera

- 180°/360° Fisheye Mini Dome
- H.265, 50% lower bitrate
- 30fps @ 2048 x 1520
- Edge Storage

The FE5403 is a compact, yet powerful fisheye dome camera featuring many cutting-edge technologies. The high resolution fisheye lens provides 360° surround view with image detail even at the normally weak edges; the backside illuminated 4-Megapixel image sensor ensures good low light sensitivity; our advanced fisheye dewarping algorithms keeps distortion lower than others while putting less computing loading on the server; and last but not least, video can be streamed in the ultra-efficient H.265 format, which has up to 50% lower bitrates and cuts your bandwidth and storage requirements in half.

It also features a removable IR-cut filter, MicroSD/SDHC/SDXC edge storage, PoE, two-way audio and alarm input/output, making it a extremely versatile camera with maximum coverage.
