NVR Champ Release Note

Version 3.0.0.55 release date_2016.03

Bugs Fixed

1. Emergency record will start when stop at first time login and switch to playback.
2. WAN file backup timeout when transferring large files is fixed.
3. WAN playback performance is enhanced by adding new NUPP command "NEXTGOP".
4. Local joystick support is merged back.
5. Local audio support in 2nd stream.
6. Fix local display "splash" issue that happens sometimes.
7. Fix local display showing FPS without decoded issue that happens sometimes.
8. Fix local backup POS sometimes can't show Chinese.
9. Fix remote playback can't use "select folder" to show POS.
10. Local audio will disappear when monitor "unplug and plug" in solo is fixed.
11. Drag and Drop will sometime malfunction during high CPU usage is fixed.

Known Issues

1. User needs to use client pack 6.1.705.5 for new features to avoid failure.
2. To change camera order in liveview, user needs to click grid more than 2 seconds until mouse cursor change icon  for drag and drop.
